

Outcome, Islington Mind

Outcome Training

- Our **free** training programme draws from decades of experience running Outcome, an LGBTQI+ only community-led space
- It is **intersectional**: we all experience compound discrimination as the result of multiple identity positionings
- It **decentres** notions of the “norm” as white, straight, able-bodied, and cis
- Our training is **holistic, non-judgemental, and person-focused**: we focus on what participants need with the intention of improving LGBTQI+ people’s experiences of systems and services

Modules

- ★ Creating sustainable LGBTQI+ spaces
 - ★ Supporting LGBTQI+ people with their mental health
- ★ LGBTQI+ suicide prevention
- ★ LGBTQI+ Inclusion / Best Practice
